Gentlemen:

The U.S. Department of Energy (DOE) delivered the Technical Memorandum No. 1 for Operable Unit No. 2 at the Rocky Flats Plant on August 19, 1991. This memorandum presents changes in data acquisition strategies from the conditionally approved work plan delivered on February 28, 1991. To make a timely transition of field activities from one strategy to the proposed, DOE would like to receive written comments on the Technical Memorandum No. 1 by October 21, 1991.

If you have any questions or concerns, please contact Brent Lewis of my staff at 966-4765.

Sincerely,

  
David P. Simonson  
Assistant Manager  
for Environmental Management
